Speaking Topics

Christian Perez | @thechrisgrey

Christian Perez brings a unique perspective to the stage—combining a decade of Special Forces experience with deep technical expertise in cloud architecture and AI. His talks bridge the gap between military discipline and modern technology, delivering actionable insights for veterans, founders, and forward-thinking organizations.

AI & Emerging Technology

Practical perspectives on artificial intelligence, cloud architecture, and the technologies reshaping business and national security.

- **AI for the Rest of Us** — Demystifying artificial intelligence for non-technical leaders and small business owners
- **Cloud-Native by Design** — Building scalable, intelligent infrastructure from the ground up
- **The Autonomous Future** — How veterans can lead in robotics and autonomous systems
- **Generative AI in Practice** — Real-world applications beyond the hype

Veteran Transition & Leadership

Insights from a decade in Special Forces on resilience, identity, and thriving after the uniform.

- **Beyond the Assessment** — Forging strength and purpose in the transition from military to civilian life
- **The Warrior Mindset** — Applying Special Forces principles to business and life
- **From Operator to Entrepreneur** — Translating military experience into business success
- **Leading Without Rank** — Influence, adaptability, and mission-first leadership in civilian contexts

Entrepreneurship & Small Business

Practical strategies for founders and small business owners building in the modern economy.

- **Compete and Win** — How small businesses can leverage AI and cloud to outperform larger competitors
- **Startup Strategy for Veterans** — From idea to execution with military precision
- **Building in Public** — Lessons from launching VetROI™, Elo™, and Altivum
- **Certifications as Career Capital** — The ROI of cloud and AI credentials

Formats

- Keynote presentations (30–60 minutes)
- Panel discussions and fireside chats
- Workshops and breakout sessions
- Podcast and media interviews
